

# Board Governance Training Opportunities

*Customized to fit your needs!*

Serving on a nonprofit Board of Directors can be one of the most fulfilling ways to leverage your skills and expertise towards fostering positive change within the community. Nonprofits dedicated to advancing and supporting communities encounter substantial hurdles and opportunities, necessitating the recruitment of vibrant, diverse, and capable leaders to fulfill their missions. However, board members sometimes lack the necessary tools and insights to optimize their effectiveness without foundational knowledge. **This is where AZ Impact for Good comes in.**

Our board governance training is meticulously crafted to equip individuals with the essential information required when embarking on nonprofit board service; to deepen and enhance the contributions of current board members; and to offer a valuable refresher on the latest trends and best practices for board members and organizational leaders alike.

Subject matter experts deliver insights encompassing crucial aspects of nonprofit board service, including:

- Foundational nonprofit board roles and responsibilities
- Understanding of the essential role and impact of nonprofits
- The financial, legal, and fundraising roles of nonprofit board service
- The role of the board chair, treasurer, and other key board positions and committees

Our team can also help identify and address specific needs your board may have through customized training programs.
